SUMMARY

Software Engineering undergraduate, aspiring Full Stack Developer with hands-on experience in the MERN stack (React, Node.js, Express, MySQL). Built and deployed multiple full-stack projects including an e-commerce platform and a job portal application, covering frontend UI, backend API development, database design, and cloud deployment. Strong foundation in JavaScript, HTML5, CSS3, and version control (Git/GitHub), with a growing interest in building scalable, real-world web applications.

EDUCATION

B.Sc. in Software Engineering
Daffodil International University
01/2024 – Present
Savar, Dhaka, Bangladesh
Undergraduate

SKILLS

- Programming Languages:** Python, JavaScript, Java, PHP, C,
- Web Technologies:** HTML5, CSS3
- Frameworks:** React, Express.js
- Databases:** MySQL, MongoDB
- Tools & Platforms:** GitHub, VS Code, Windows, Linux

PROJECTS

- JobNest - Job Portal** [🔗](#)
Full-stack job portal with job search and filters, applications, and an admin dashboard to manage jobs and applicants. Built with Node.js, Express, MySQL and JWT auth.
- Government Job Age Calculator** [🇧🇩 🔗](#)
A web-based tool designed to help users calculate their age and check government job age eligibility in Bangladesh.
- HASAN JIM Luxury Store** [🔗](#)
A full-stack luxury e-commerce platform with React, Node.js/Express, and MySQL — featuring JWT authentication, role-based admin dashboard, stock-safe checkout, and order tracking.
- Eventify — Full-Stack Event Management Platform** [🔗](#)
A full-stack event management platform where organizers can create and manage events, while attendees can discover events, register, and manage their tickets.
